Macomb, IL 61455

The FCC's Rules, Part 97.307(a) points out that amateurs shall not occupy more bandwidth than necessary for the information being transmitted in accordance with good amateur practice. The object of limiting bandwidth to 2.8 kHz is of utmost importance, and I am glad that this problem is addressed in the rules for 60 meters. It behooves us to do the same for all the bands.
